ABOUT OUR PIES ...

- ❖ Our pies are 9 inches in diameter and come individually packaged in their own corrugated box. They can be divided into 6 – 8 slices!
- ❖ Our pies are made with the finest ingredients and baked right before they are delivered to you. Our pies DO NOT arrive unbaked or frozen. *It is important that your organization deliver the products the same day they arrive from us.*
- ❖ Cream pies should be refrigerated. Freezing these pies can affect their appearance and make their crusts soft. Cream pies should last 4-5 days if refrigerated.
- ❖ Pecan pies have a shelf life of up to 10 days. If refrigerated, they will last 2-3 more days. Freezing these pies can affect their appearance and make their crusts soft.
- ❖ Our fruit pies have a shelf life without refrigeration. Refrigerating our fruit pies will make them last about 5 days. Fruit pies can be frozen. We recommend placing the pie in a freezer bag and putting it back in its original box for best freezing results. Pies may be frozen approximately 1 to 2 months. Pies frozen longer than 2 months aren't harmful – they just aren't at their peak flavor and texture.
- ❖ To thaw a fruit pie, immediately place it in a 350°F oven for 25-30 minutes and then serve.
